Introduction.

Lors de mes recherches généalogiques personnelles j'avais rencontré maintes difficultés à localiser les lieux des événements. Une première énigme s'était posée lorsque une aïeule lointaine était née "in silva rotunda" et qu'une autre était qualifiée au registre paroissial d'"attillaepontana". Après pas mal de recherches personnelles et de renseignements pris auprès des amis, j'ai pu localiser l'une au domaine du Bois-Rond près de Hachy et l'autre était tout simplement d'origine ettelbrückoise.

L'idée de cette nomenclature des noms de localités luxembourgeoises et des régions limitrophes m'est venue lorsque j'avais enregistré l'article de Guy MAY sur les habitants de la ville de Luxembourg en 1732 (Hémécht 3/1986-87). J'avais terminé tous les index des personnes et des métiers qu'ils pratiquaient. Restait celui des localités de provenance qui regorgeait d'une foule de noms auxquels je ne pouvais pas attribuer la localité correspondante. C'est à ce problème que notre projet d'éditer cette suite d'articles en un seul volume échoua provisoirement.

Entrevoiant l'intérêt qu'un relevé aussi complet que possible des localités du pays et de ses régions limitrophes ainsi que des synonymes anciens rencontrés au cours des recherches pouvait avoir pour tous les généalogistes du pays et des régions voisines, j'ai communiqué l'idée d'en établir une nomenclature aussi complète que possible à l'ami Norbert HAMES de notre groupe "Généalogie et Ordinateur" de l'ALGH (Association Luxembourgeoise de Généalogie et d'Héraldique). Plein d'enthousiasme nous nous mettions ensemble avec tous les amis de notre groupe à la recherche de publications déjà parues et traitant du sujet. Chacun y mettait du sien et bientôt nous avons rassemblé une dizaine de cahiers et de livres intéressants. En commun nous consacrons nos soirées du mardi à enregistrer les listes publiées au siècle dernier et plus récentes. De cette façon nous avons rassemblé:

- Les noms de localités rencontrées au "Luxemburger Wörterbuch", et surtout les listes du tome V, 1977 renseignant sur les noms allemands des localités limitrophes belges;
- La liste des villages des Pays Thionillois et Sierckois (Hemechtsland a Sprooch 1/1984)(En français et en luxembourgeois);
- La Nomenclature de toutes les localités du Pays, P&T, 1932;
- Circonscription du Pays Duché de Luxembourg et Comté de Chiny ... d'après le Cadastre de Marie-Thérèse en 1766-1771, et Liste des villes, villages, etc. du Duché de Luxembourg et Comté de Chiny en 1777, par Pierre RUPPERT (PSH XLVI, 1898);
- Table alphabétique des villes, bourgs, villages, hameaux, châteaux, fermes, moulins et maisons isolées du Grand-duché de Luxembourg par SIVERING et P. KOLTZ, Lamort, 1847;
- Manuscrit Pierre LEISTENSCHNEIDER: Catalogue général et alphabétique des villes, bourgs, villages, hameaux, châteaux et censes ... 1793/1794 (Publié par E.TANDEL aux Annales de l'Institut Archéologique Arlon, X, 1878);
- L'Annuaire 55 de la TELEKOM allemande, 1993-94;
- Les communes du département de la Lorraine (1871-1918) (En français et en allemand);
- Liste alphabétique des Villes, Bourgs, Villages et Écarts de la Province du Luxembourg (AEArlon);
- Atlas Historique Meuse-Moselle, Nomenclature des localités allemandes 1970, Répertoires Meuse - Moselle IX, par le CERUNA, Namur;
- L'annuaire Officiel d'administration et de législation 1986 en ce qui concerne les communes et leurs sections;

Enfin un groupe s'est mis à dépouiller systématiquement les cartes topographiques du pays (1: 20 000), notant chaque écart aussi petit fut-il.

Afin d'y inclure également les noms anciens des localités du Duché de Luxembourg notre ami Jean-Marie GUEIBE de Libramont a enregistré GROB & VANNERUS: Dénombrement des feux des duché de Luxembourg et comté de Chiny, Bruxelles, 1921.

A cette même fin nous enregistrons en commun les noms anciens apparaissant dans MAJERUS: Gemeinden, MEYERS: Siedlungsgeschichte, Les Archives de Clervaux, Les Archives de Schüttburg, SPANG/BERTELS, et d'autres.

1. The first part of the document deals with the general situation of the country and the position of the various groups.

2. The second part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

3. The third part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

4. The fourth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

5. The fifth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

6. The sixth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

7. The seventh part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

8. The eighth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

9. The ninth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

10. The tenth part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

11. The eleventh part of the document deals with the specific situation of the various groups and the measures taken to improve their position.

Un premier amalgame de toutes ces données a été réalisé par Jean-Marie GUEIBE. La mise en page finale a été assurée par mes soins.

Au vu de toutes ces sources hétéroclites il ne faut pas s'étonner de trouver pêle-mêle les noms français, allemands, luxembourgeois mélangés avec des versions anciennes de ces appellations. De même les désignations des communes, cantons, offices et quartiers, - termes d'ailleurs archaïques utilisés dans les documents du siècle passé,- sont données dans le but d'informer le lecteur de l'unité supérieure dont la localité fait partie, afin de mieux pouvoir la situer.

Nous nous excusons pour la petitesse des caractères employés: Un volume de presque vingt mille noms aurait pris autrement une place trop importante.

Nous espérons avoir fourni aux amis généalogistes un instrument de travail qui leur facilitera tant soit peu la recherche fastidieuse des localités presque introuvables.
